

The image consists of two screenshots of a web browser showing a GitHub profile and a repository page. The top screenshot shows the profile of 'dansquiggs', which includes a purple logo, a bio, and a contribution graph for the last year. The bottom screenshot shows the repository 'cmpt220squicciarino' by 'dansquiggs', including a description, commit history, and a 'Clone or download' button.

**Top Screenshot: GitHub Profile of dansquiggs**

- Profile name: dansquiggs
- Joined a minute ago
- Overview, Repositories (0), Stars (0), Followers (0), Following (0)
- Popular repositories: You don't have any public repositories yet.
- 1 contribution in the last year
- Contribution settings: Less, More
- Text: This is your contribution graph. Your first is for joining GitHub and you'll earn more as you make additional contributions. More contributions means a darker green square for that day. Over time, your chart might start looking something like this.

**Bottom Screenshot: GitHub Repository Page for cmpt220squicciarino**

- Repository name: dansquiggs / cmpt220squicciarino
- Watch (0), Star (0), Fork (0)
- Code, Issues (0), Pull requests (0), Projects (0), Wiki, Settings, Insights
- No description, website, or topics provided.
- 1 commit, 1 branch, 0 releases, 1 contributor
